I saw Jason Hewlett's performance at a conference I attended and knew I had to get him to perform at our convention! I have never laughed so hard and had so much fun as I did while watching Jason's amazing ability to perform musical impersonations. His ability to transform himself from Elton John to Ricky Martin to Bono within seconds was amazing and hysterical all at the same time. Just when you thought the musical comedy was amazing, he would move to a Jim Carey impersonation that was even funnier than watching Jim Carey himself.

Jason's performance added such fun and value to our convention. Many Demonstrators mentioned that seeing Jason was one of the convention highlights. We can't wait to have him back again!
